**January 8, 2016**

---

Abowd and Vilhuber acknowledge direct support from the U.S. Census Bureau and from NSF Grants BCS-0941226, TC-1012593 and SES-1131848. Some of the research for this paper was conducted using the resources of the [Social Science Gateway](#), which was partially supported by NSF grant SES-0922005. This paper was written while the first author was Distinguished Senior Research Fellow at the Census Bureau. Any opinions and conclusions expressed herein are those of the authors and do not necessarily represent the views of the Census Bureau or the NSF. We acknowledge helpful comments from Cynthia Dwork, Ashwin Machanavajjhala, Bruce Spencer and Nellie Zhao. We thank Jennifer Childs and Casey Eggleston for providing data from the Federal Statistical System Public Opinion Survey conducted by the Census Bureau's Center for Survey Methodology. No confidential data were used in this paper. A complete archive of the data and programs used in this paper is available in the Digital Commons space of the Cornell Labor Dynamics Institute <http://digitalcommons.ilr.cornell.edu/ldi/NN/>.

## **Abstract**

## 1 Introduction

## 2 Background

## 3 Preliminaries

## 4 Applications

## 5 Conclusion

## Bibliography
